

**POLAR WHITE C180 CLASSIC AUTOMATIC MERCEDES-BENZ £2,499 O.N.O.**

First registered June 1997 – 150k mileage – one lady owner/driver during the last eight years.

1,799 cc, petrol, MOT to August 2009, ABS, ESP, alarm, immobiliser, airbags, air conditioning, cruise control, PAS, power locks, p/windows & p/sunroof.

A very reluctant sale due to my wife now finding the A class easier to get into and out of and, as much as I'd like to, I can't let this car remain in the garage keeping clean, while the new one is parked on the drive. This car is virtually as solid as the day she was manufactured, the paintwork is immaculate and everything that has had to be renewed has been replaced with the relevant genuine M-B part - right down to accessories in the standard First Aid Kit. There are no knocks, whines, squeaks or rattles and the engine purrs exactly as it should.

Any inspection is welcomed and a test drive is recommended to prove what I say. In my opinion, she is every bit as good as the day I purchased her eight years ago, and I honestly cannot believe so many years have passed her by - my wife and I wish we'd aged as well!

If interested, please call **0845-500-1000** for further details.
